# The Commercial Restoration Experts

specializing in:

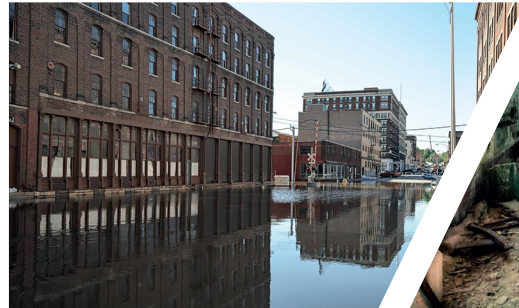

## Hospitality

## Medical Buildings

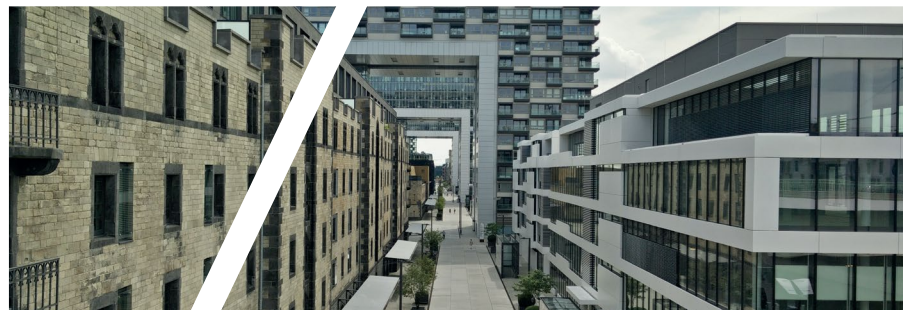

## Commercial Buildings

## Education Facilities

## Property Management

This program allows our customers to recover from disasters quicker, decrease business interruption and return to business faster.

From your smallest emergency to your largest disaster, having an **Emergency Response management plan** and partner in place is **essential to recovery**.

With the increasing number of weather events, the businesses that survive have a plan and partner in place.

Together we gather and catalogue your site-specific information that is needed to ensure a rapid response when disaster strikes.

## Actions taken within the first 24 hours are critical to minimizing loss

When an emergency or disaster strikes, our crews access your plan on their **mobile devices** and **deploy response protocols** specific to your site **24/7/365**

Retain your client base during emergencies and disasters by having a partner in place with the right plan

We have the experience and knowledge to handle **ANY SIZE LOSS**

We become an integral part of your **DISASTER RESPONSE PLAN** by meeting with building administrators to collect site-specific information to ensure readiness.

### THIS WILL INCLUDE:

- Electrical Protocols
- Water Protocols
- Building Layout
- Equipment Protocols
- Staging Information
- Building Vendors, etc...

Allowing us to Develop a comprehensive **emergency response** and **recovery plan** prior to any emergency.

Quick response sprinklers can release up to **24 gallons** of water per minute or up to **1400 gallons per hour**, that can cause extensive, expensive damage. This is why an **Emergency Response management plan** and partner in place is essential to recovery. **Minimize cost, limit downtime and disruption.**
