# Company Background

## Our Story

Founded in 2005, Plant Specialists started as a small firm that aimed to beautify indoor spaces with plants. Over the years, we grew our team, expanded our services, and became the best plant design company in New York.

## Our Values

At Plant Specialists, we value creativity, sustainability, and customer satisfaction. We work with a team of plant specialists who are passionate about their work and are dedicated to creating unique and stunning designs.

## Our Promise

We promise to provide you with exceptional plant design services that exceed your expectations. We guarantee high-quality plants, timely deliveries, and a friendly and professional approach to all our clients.

# Our Services

## Indoor Plant Design

Our indoor plant design services include choosing the best plants for your space, creating customized planters, and arranging plants in the most aesthetic and functional way.

## Outdoor Plant Design

Our expert designers can transform your outdoor space with the most beautiful and unique plant arrangements. We choose the best plants suitable for your climate and location, giving you the perfect outdoor oasis.

## Plant Maintenance

At Plant Specialists, our work doesn't end with the plant installation. We offer plant maintenance services to keep your plants healthy, green, and thriving all year round.

# Our Team of Plant Specialists

## 1 Expertise

Our team of plant specialists has decades of experience in the field of plant design. They are knowledgeable, passionate, and dedicated to creating unique and sustainable plant arrangements that elevate your space.

## 3 Professionalism

Our team is friendly, professional, and efficient. They respect your time and space and make sure to complete the installation and maintenance work with the least disruption to your routine.

## 2 Creativity

Our designers are artists at heart and love to create unique and stunning plant designs. They stay updated with the latest trends and techniques, ensuring that your plant arrangements are always fresh and fashionable.

# Sustainability Practices

1

## Plant Selection

We use native or drought-resistant plants that require less water and pesticides, reducing their impact on the environment.

2

## Recycling

We recycle all our plastic and paper products and compost all organic wastes, making sure we minimize waste and promote sustainability.

3

## Green Energy

We use renewable energy sources to power our offices and use energy-efficient lighting and equipment, reducing our carbon footprint.
